

# PILLARS OF EXCELLENCE

## Relocation Specialists

BBH Solutions has been a technology leader of Optimized Communications for over 25 years. Specializing in providing Technology Infrastructure for corporate relocation projects and office fit-outs, we offer On-Premise and Hosted / Cloud-based solutions as well as Managed Support Services.

**IT Assessment / "B4U"** – BBH's complete 'B4U' step-by-step approach helps to discover and assess your current and future needs. We provide the technology blueprint that will help to keep you in touch with your customers and co-workers anywhere, on-demand.

**Network Infrastructure & Telecom** – Your core network infrastructure is the system that will deliver collaborative experiences to your customers and coworkers. For on-premise or hosted solutions, BBH will provide you necessary routing, switching, laptops, servers, printers, storage, and secure infrastructure cabling that will keep your organization ahead of the competitive curve. Get there faster with BBHConnectivity high speed transport, internet, and SIP connections.

**Wireless Networks (WLAN)** – Performance and availability are crucial elements of a successful WLAN implementation. Before any design, our engineers survey your site for signal optimization and provide you with a wireless Heat Map. From small office spaces to campus-wide installations, BBH is your expert connection for wireless design & networking.

## Ask about BConnected Voice

**BConnected Voice** – BBH offers Hosted VoIP over a secure internet connection. ## Beyond - Voice / Data / Video

**Hosted email & more** – Who is hosting your e-mail? If you join BBH in our World Class Data Center, we can host your email. Hosted service will include Anti Spam, Anti-Virus, e-mail, offsite data / email back up and of course the data storage email attachments. How do you protect your data in the event of a major outage? We can help to keep your information safe, and report back to you with monthly analytics. BBH's Data center at "CoreSite," NY2- is one of the country's most secure locations.

**B-eProtected** – Business Continuity/Disaster Recovery – Do you have a Recovery Time Objective (RTO) or Recovery Point Objective (RPO) strategy in place? We offer options to fortify your disaster recovery strategies. Our business continuity services can help your business maintain operations during critical times. This can be a valuable add-on to your BConnected Data service.

**B-Secure** – The internet and email inboxes are both delivery mechanisms for malware, trojans, and viruses that can instantly compromise data and hard drives. Malicious code writers are dedicated to destruction and they improve every day. Our cloud-based protection suite is continually updated to fight the latest threats that can compromise your network and halt productivity. Our system identifies and stops spam, phishing emails, viruses, trojans, and unauthorized web use, to name some.

**Lookout** – Keep your valuable IT in good health with your personalized BBHWorks support plan. We have you covered with onsite and remote support, 24x7x365 monitoring, and proactive site visits. We offer staff augmentation if there is a need for additional IT staff.

**BConnected Video** – BBH Solutions offers a variety of Video Conferencing services (Hosted or On-Premise) that will change how you communicate with employees and customers anytime, anywhere, on ANY device! Ask your CAM for a FREE demonstration at your location, on your desktop, or your phone.

**Audio Visual Integration** – BBH has a boutique world class audio visual integration team. Specifically engineered to meet your individual needs.
