# Improve productivity with Windows and Microsoft 365

Collaborate in real time and leverage the intelligence of the cloud with the latest from Windows 10 and Microsoft 365.

61% of employees believe effective business tools allow them to offer faster service according to BCG.[1]

50% increase in time spent collaborating with other information workers according to Forbes.[2]

35% of knowledge workers still collaborate on documents using email.[3]

Work better together—from any location:

Streamline collaboration

Integrate team chats, meetings, and files in one place to increase productivity.

Enable employees to share and communicate with flexible tools that go where your company's teams go.

Improve performance

Gain instantaneous analysis from intelligent services like Editor, Designer, and Smart Lookup with capabilities built Into Microsoft 365

Give users the easy, collaborative experiences they want with access to the latest intelligent AI technologies.

Enable work from almost anywhere, on any device

Provide secure remote access to employees working from personal devices.

Stay in control of your organization's devices while delivering rich capabilities across PC and mobile.

Proof points

4h

4 hours per week are saved by information workers through improved collaboration and information sharing.[4]

6x as many small businesses agree that dynamic team structures will become the norm (versus disagree).[5]

17.7% improvement of time-to-decision made by decision makers.[4]
